

**PRELIMINARY AGENDA
NORTH CENTRAL FLORIDA (DISTRICT 3)
LOCAL EMERGENCY PLANNING COMMITTEE**

Suwannee County Emergency
Operations Center, Live Oak, Florida

10:00 a.m., Thursday
November 20, 2014

- I. INTRODUCTIONS AND CHAIRMAN'S REPORT**
- II. APPROVAL OF AUGUST 21, 2014, MEETING MINUTES ***
- III. LEPC BUSINESS ITEMS**
 - a) Election of Officers: Chair; Vice-Chair, Public Information, and Vice-Chair, First Responders
 - b) Appointment of Training Task Force Representative
 - c) County Reports on Hazardous Materials Activities and Exercises
 - d) Update on Presidential Executive Order 13650: Improving Chemical Facility Safety and Security and Ferrell Gas Releases in Trenton and Madison
 - e) Hazards Analysis Update, Distribution of Summary and Providing Information to Dispatchers Warning of Hazardous Materials at Facilities
- IV. PUBLIC INFORMATION ISSUES**
 - a) How-to-Comply Seminars in January or February, 2015
 - b) Hazardous Materials Awareness Week Activities in September to coincide with National Preparedness Month
 - c) Thomas Yatabe Recognition Awards
 - d) LEPC Membership Report
 - e) Other Public Information Issues
- V. FIRST RESPONDER ISSUES**
 - a) Hazmat First Responder Training Program and Classes
 - b) Status of Supplemental Environmental Projects Website and Database
 - c) Hazardous Materials Response Agreement Between North Florida, South Alabama and South Georgia
 - d) State Emergency Response Commission Training Task Force Issues
 - e) Regional Hazmat Team Update - Meeting, 1:00 pm
- VI. OTHER BUSINESS AND INFORMATION REQUESTS**
- VII. NEXT MEETING DATE AND LOCATION**

LEPC
Chris Rietow, Dist. 2 LEPC
James Sommers, Suwannee
County FR

STAFF PRESENT

Dwayne Mundy

The meeting was called to order at 10:06 a.m.

I. CHAIRMAN’S REPORT AND INTRODUCTIONS

Chair Ron Mills welcomed everyone and asked that they introduce themselves. He thanked Tom Cisco and Madison County Emergency Management for hosting today’s meeting. Chair Mills reported on the FEPA Mid-year Working Meetings and encouraged LEPC members to join the organization.

II. APPROVAL OF 29 MAY, 2014, LEPC MEETING MINUTES

Action: It was moved by Shayne Morgan and seconded by Scott Holowasko to adopt the minutes of the May 29, 2014, LEPC meeting as printed. The motion passed unanimously.

Draft

III. LEPC BUSINESS ITEMS

The LEPC reviewed the Tri-State Hazmat Mutual Aid report prepared by LEPC Districts 2 and 3 approximately 10 years ago. At the last meeting it was decided to restart the discussion on improving coordination and determine the current need for mutual aid agreements. Guests included LEPC District 2 Chair and staff, as well as the Tallahassee Fire Department Hazmat Team. The Valdosta (Georgia) Fire Department Chief and hazmat team also were in attendance. It was decided that the status of the agreement should be identified as well as the level of interest in pursuing additional members.

The LEPC discussed the status of Executive Order 13650 on Improving Chemical Facility Safety and Security. The LEPC discussed it's that include support of the Florida regional LEPC model, support for CAMEO for conducting hazards analysis, and including ammonia nitrate storage reporting on Tier 2 forms. It was discussed that while local solutions are often the best option, there is no funding proposed to enhance and support these enhancements.

The group discussed ongoing problems with US Department of Transportation HMEP grant program and the recommendation that the money being made available at the local level should increase from a minimum of 75 percent to 90 percent. The group discussed it was inefficient that every class had to be individually approved each time it was offered.

LEPC staff Dwayne Mundy reported on the most recent Hazards Analysis Working Group meeting and the unanimous recommendations made to the Division. The Working Group strongly objected to the decision by the Division that if any errors were present in the hazards analysis, that the county or RPC would not be funded for that portion of the update. Mr. Mundy reported that as Chair of the working Group he was happy to report that progress is being made the establishment of a data upload portal and adding the hazards analyses into the online GATOR geographic database.

Recent training classes, exercises, releases and spills were reported by LEPC members. Incidents discussed included a hydrochloric acid spill near I-10 in Madison County, and a sulfuric acid release in Taylor County. Future training classes and exercises were also discussed. Training classes included Operations Level in Gilchrist County and Air Monitoring in Columbia County.

IV. PUBLIC INFORMATION ISSUES

Vice-Chairman Shayne Morgan reported that the LEPC should move Hazardous Materials Awareness Week to September to coincide with National Preparedness Month. It was discussed that this could result in two Hazardous Materials Awareness Weeks in 2014; however, the LEPC would no longer need to compete with Hazardous Weather Awareness Week which happens to occur near or at the same time.

Draft

Mr. Morgan reviewed the biannual appointments of members and alternates to the LEPC. It was noted that every occupational category remains filled.

Dwayne Mundy reported that work is continuing on the LEPC webpage update and that the latest area being changed is that the adopted minutes are being added to the archived section.

No additional public information issues were identified.

V. FIRST RESPONDERS ISSUES

Chief Donnie Sessions discussed first responder issues. It was reported that on yesterday's SERC training task force conference call that DEM had stated that no additional training funds are available as requested by the LEPC and they did not review the status of HEMP planning funds as requested.

Chief Sessions reported on the LEPC biannual exercise which was conducted as part of a technician training class held in Lake City. He stated the incident involved a diesel spill on Alachua/Columbia County border with leaks into the Santa Fe River. He reported that less than two weeks later that an actual incident occurred on Interstate 75 in Columbia County spilling 6,000 gallons of diesel and that booms were used to contain the spill in nearby waterways. Chief Sessions reviewed the improvement plan matrix from the After Action report which itemized recommendations for the LEPC to make as a result of the exercise.

Staff Dwayne Mundy reported that he attended 3rd Annual Rural County Summit held in Gadsden County which included a presentation on the West, Texas ammonium nitrate explosion. He said he asked the emergency manager for that disaster what recommendations he would suggestions he had to increase hazmat planning and preparedness. Mr. Mundy said that his recommendation was that the improvements are best accomplished at the local level and not the state level.

Dwayne Mundy reported on the status of the supplemental environmental projects on the website and data base. He stated that it is anticipated that the division will have a beta test version completed prior to the October State Emergency Response Commission meeting.

He added that he has been in contact with the US EPA regarding enforcement actions that may be taken against Ferrell Gas as a result of having releases from non-reported propane storage tanks that had major releases in Trenton and Madison. Staff was directed to again request that the EPA take enforcement actions

It was reported that the Regional Hazardous Materials Response Team Policy Board meeting will follow this meeting at the same location today.

Draft

VI. OTHER BUSINESS AND INFORMATION REQUESTS

No new business or information requests were discussed.

VII. NEXT MEETING DATE AND LOCATION

The tentative date for the next LEPC meeting was November 21, 2014 at the Madison County Emergency Operations Center.

It was moved and the meeting was adjourned at 11:12 a.m.

Chairman

III.d Executive Order 13650 Improving Chemical Facility Safety and Security

Please join us for an *Improving Chemical Facility Safety and Security* (Executive Order (EO) 13650) webinar as we present an update on actions items since the June 6, 2014, release of [Executive Order 13650: Actions to Improve Chemical Safety and Security – A Shared Commitment](#). We will discuss progress on the Federal Action plan to include:

- Strengthening community planning and preparedness;
- Enhancing Federal operational coordination;
- Improving data management;
- Modernizing policies and regulations; and
- Incorporating stakeholder feedback and developing best practices.

We encourage participation from the broad range of stakeholders who have an interest in chemical facility safety and security to include (but not limited to): chemical producers, chemical storage companies, agricultural supply companies, State and local regulators, chemical critical infrastructure owners and operators, first responders, labor organizations representing affected workers, environmental and community groups, and consensus standards organizations. As time permits, participants will have an opportunity to ask questions.

Date: Monday, November 10, 2014

Time: 4:00 PM – 5:30 PM EST

Registration:

[Register today](#) at www.cvent.com/d/n4qt96/4w. Each participant will be provided with webinar connection instructions once their registration has been completed. There is no fee to register.

As time permits, participants will be able to ask questions on a first come, first serve basis. We will do our best to accommodate all persons who wish to ask questions during the session. We request that participants refrain from making statements and use this time to ask questions. Should time run out, participants may submit questions, or those wishing to submit statements, may do so via eo.chemical@hq.dhs.gov.

For those who do not wish to register online, please contact eo.chemical@hq.dhs.gov for the webinar connection instructions. General information on the EO is located online at <https://www.osha.gov/chemicalexecutiveorder/>.

For questions regarding the EO, please contact eo.chemical@hq.dhs.gov.

DRAFT

August 27, 2014

Director Bryan Koon, Chairman
 State Emergency Response Commission
 Florida Division of Emergency Management
 2555 Shumard Oak Boulevard
 Tallahassee, Florida 32399-2149

Dear Director Koon:

The North Central Florida Local Emergency Planning Committee (District 3) makes the following nominations in recognition of significant contributions to our hazardous materials planning and training programs. This year, the LEPC nominations focus on key people that are helping make the District 3 hazardous materials safety program a success.

The 2014 Yatabe Outstanding Achievement nominee from District 3 is Dwayne Mundy, LEPC District 3 staff. Dwayne is also the Chair of the SERC Hazards Analysis Working Group. The LEPC would like to recognize his hard work to ensure that Florida's hazardous materials planning program is focused on a sound technical basis and that we are doing the best job possible to protect our communities from accidental and deliberate chemical releases.

Nominations for Certificates of Appreciation are enclosed. These following nominations recognize individuals that have sponsored LEPC meeting in 2014. These include: Scott Holowasko, Gainesville Regional Utilities; Bill Ellis, PCS Phosphate, Tom Cisco, Madison County Emergency Management; and Kimberly Thomas, Suwannee County Emergency Management.

Nominations are also included for individuals that have worked to help improve regional preparedness. These nominations include: Valdosta Fire Department (Georgia); Chief Bruce Jordan, City of Madison Fire Rescue; and Division staff member Henry Turner.

Thank you for the State Emergency Response Commission's consideration of these nominations. If you have any questions regarding this matter, do not hesitate to call LEPC Director Dwayne Mundy at (352) 955-2200 x108 or email: mundy@ncfrpc.org.

Sincerely,

Ronald Mills, Chair

Enclosure

xc: Tim Date, Henry Turner

* Inactive Status

GUESTS PRESENT

Bruce Jordan, City of Madison
Ken Gallagher, Valdosta Fire
Brian Boutwell, Valdosta Fire
Chief Freddie Broome, Valdosta Fire

Draft

The meeting was called to order at 1:03 pm.

I. INTRODUCTIONS AND CHAIRMAN'S REPORT

Chairman Don Sessions called the meeting to order and welcomed everyone. Everyone introduced themselves. Chairman Sessions also reported on recent activities.

II. APPROVAL OF MAY 29, 2014 DRAFT MINUTES

Action: It was moved by Ron Mills and seconded by Dan Smith to approve the minutes of the May 29, 2014 meeting as written. Motion passed unanimously.

III. PLANNING AND OPERATIONAL ISSUES

The group welcomed the representatives from Valdosta, Georgia Fire Department, Tallahassee Fire Department, and LEPC District 2 Chair and Staff. It was noted that Dothan, Alabama Fire Department was invited but unable to attend. The group discussed hazardous materials response training issues and strategies for conducting training based upon Operations Level Plus as defined by NFPA 472. This allows for a response to specific types of situations based upon specific training, such as drug labs or conducting decontamination.

The group discussed possible follow-up actions to the Tri-State Hazardous Materials Response Mutual Aid Agreement that has been inactive for a number of years. It was decided that Florida LEPC Districts 2 and 3 would determine which local governments had actually executed the Agreement and report back at the next meeting.

The group discussed the ongoing goal of ensuring that all responders are able to view information on possible Hazmat locations in the response area. Dwayne Mundy reported on the Data Sharing meeting was held on July 22, 2014. The objectives included updating hazardous materials laptops, sharing E-plan and Hazard Analyses information. The E-plan information was distributed as both a PDF document and a CAMEO import file. Dwayne Mundy reported that the LEPC Planning Project for the year is preparing a Hazard Analyses Summary and that drafts would be distributed for review before final approval by the LEPC at its next meeting.

Donnie Sessions reviewed Air Monitoring and Hazardous Materials Incident Management classes being conducted. The group discussed and indicated that there is sufficient interest in holding an IAFF 160 Hour Technician Class early in 2015.

Dwayne Mundy reported that the pipeline safety grant application deadline for 2014 was months earlier than before and the opportunity to apply has already passed. He reported that the grant announcement may be out near the end of the year and we need to decide what to ask for that fits within the scope of allowable, non-construction expenses.

V. OTHER BUSINESS AND NEXT MEETING

The next meeting was tentatively scheduled at 1:00 p.m. to follow the next LEPC meeting to be held on November 20, 2014 at the Suwannee County Emergency Operations Center.

The meeting was adjourned at 1:46 p.m.
