REGISTRATION FOR HAZMAT TRAINING

(Date)

(Name)

(Job Assignment)

(Organization and Address)

(Telephone Number and E-Mail Address)

I request registration in the following free hazmat training classes. I agree to pay a \$25 cancellation fee for each class for which I register but do not attend. Any questions regarding the classes, contact Dwayne Mundy at 352-955-2200 x108 or email: mundy@ncfrpc.org

Signature of Applicant

Signature of Training Officer

This signed registration form must be faxed to (352) 955-2209 or mailed to Dwayne Mundy, North Central Florida LEPC, 2009 NW 67 Place, Gainesville, FL 32653 [last updated: 30 September, 2003]

Decontamination Training: This class is appropriate for both operations and technician level. The objective is to have responders in every county that are capable of setting up and operating a decon system.

Hazmat Technician Series: The following technician-level refresher classes are in the process of being scheduled between November, 2003 and March, 2004. If your department is interested taking advantage of this free training, please contact Dwayne Mundy.

- **Hazmat Chemistry** - Lake City _____ October 6-10, 2003 (40 hr)

- **Hazmat Laptop - CAMEOfm** _____ November 4, 2003, Gainesville (4-8 hr)

- **Hazmat Boot Camp - Gainesville:** Hands-on technician refresher training stopping leaks using a variety of training props. These classes will be conducted in Gainesville at the Regional Planning Council Office. (8 hr)

These following classes are available for free in your community.

- **Air Monitoring - Refresher:** One-day classes are available for remote delivery to provide practice using Dräger tubes and the four-gas detectors provided to Regional Hazmat Team members. A commitment of 10 students is required. (8 hr)

_____ Awareness Level (4 hr) _____ Operations Level (20-24 hr)

_____ Hazmat Laptop - Geographic Information System (GIS) Training (4 hr)
